

Platform

Optional Floor Saver Platform

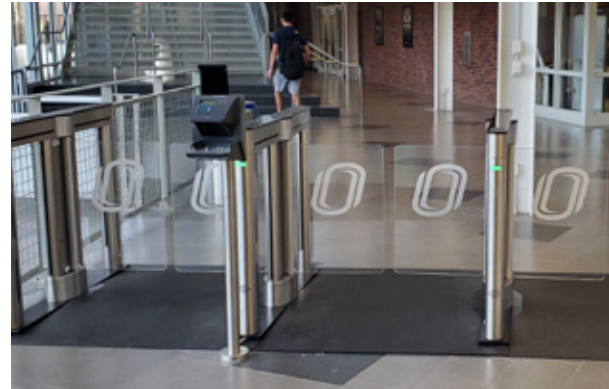

Alvarado offers an optional platform for our optical turnstiles that includes enclosed cable runs and eliminates the need for anchoring, trenching or stubbing up conduit from the floor.

Product Features

- Enclosed cable runs
- Allows users to bring power and communication through the side of the platform, rather than underneath
- Highly textured powder coated passageway
- ADA passage width & multi-lane configurations available
- Meets building codes and standards
- Low profile
- Turnstile sold separately

Additional resources, including specifications, installation manuals and drawings can be found online.

Floor Saver Platform for Optical Turnstiles

The optional floor saver platform enables easy installation of Alvarado's optical turnstiles on a solid foundation, without the need to drill holes into flooring. The platform also provides concealed conduit channels for wiring primary power, crossover power and communication, as well as access control wiring.

Typical Installation Sites

- Government Facilities
- Corporate Lobbies
- Campus Recreation Centers
- Historical Buildings

Available Configurations
